Adoption of the Principles for Responsible Management Education  

As an institution of higher education involved in the development of current and future managers, School of Management of Lanzhou University is committed to implementing the Principles for Responsible Management Education—starting with those that are more relevant to our capacities and mission, report on progress to all our stakeholders, and exchange effective practices related to these Principles with other academic institutions.

We understand that our own organizational practices should serve as example of the values and attitudes we convey to our students.

We encourage other academic institutions and associations to adopt and support these Principles.

Best Regards,

Objet: Application for signatory of PRME

December 25th, 2017

Dear Sir or Madame,

This letter is to make you aware of our intent to become a signatory of PRME.

Founded in 1909 in the less developed north-western region of China, Lanzhou University (LZU) is one of the national key universities supported by its “985” project, “211 project”, and “double first rate” initiative of Ministry of Education. Inheriting the spirit of “constantly improving, blazing our own path” to serve for the social and economical development of western China, its School of Management (LUSM) was officially established in May 2004.

Upholding the mission “to develop leaders with global perspective, local commitment and social responsibility for western China and beyond”, LUSM is trying to make its programs the cradle of managerial talents having international vision in the less developed western business environment, and to be a leader in the continuous innovation in western China’s business education.

PRME’s contribution to the promotion of innovation and responsibility practice of global business education has attracted our greatest attention and interest for years. To better serve western China’s sustainable development and make our world a better place, we sincerely hope to become a signatory of PRME and will commit ourselves to implementing the Principles of PRME.

All the faculty, staff and students at LUSM will be engaged in this process. Any necessary assistance and instruction from you will be greatly appreciated. In waiting for your response, please accept our sincere thanks for your help and guidance and our best wishes for a smooth cooperation.

Yours sincerely,
