CSR ACTIVITY at multi locations campuses of IPM:

PURPOSE: Building a Nation that lauds on its Intellectual Capital.

VALUES: We will incorporate into our academic activities and curricula the values of global social responsibility as portrayed in international initiatives such as the United Nations Global Compact.

INSTITUTE OF PRODUCTIVITY & MANAGEMENT

Ever since its inception in 1977, ‘Institute of Productivity and Management’, has emphasized on building a nation that lauds on its
Intellectual Capital. In its journey encompassing many obstacles, the institute has never transgressed from its core values of discipline & punctuality. The journey has brought many challenges in terms of changes in technology, attitude, broadening of markets etc. But the institute because of strong ethical values has made a name for itself, as an institution to reckon with.

IPM is progressing in its way of facilitating knowledge with contemporary management practices & is impinging professional values from the last four decades. Our success relies in building a system which not only supports the education system, but is equally proactive in preparing a slot of professionally equipped & socially responsible young management professionals. Along with a strong dedication to promote a research oriented environment for the upgradation & sustainability of best management practices, we groom our students with intellectual curiosity, learning & strong leadership skills which support their understanding & openness to change & innovation.

Through our participation in global compact program, we are highly privileged to be able to participate in & contribute to the preparation of a better tomorrow. At IPM, We don’t simply convey the principles of being responsible, we practice them!!

Being the member of ‘The United Nations -Principles for Responsible Management Education (UN-PRME)’, in its endeavor towards promoting Education,
