- Interactive discussion and other contributions from the audience (all participants)
- Closing remarks by **Prof. Anthony Buono** and **Florencia Librizzi**

# Guiding Questions for Discussion

- What is the role that Chapters and Local Networks should play in supporting the achievement of the Sustainable Development Goals locally?
- What must be done—individually and collaboratively as PRME Chapters and Local Networks members and representatives—to support this vision for the world?
- What are the local challenges and opportunities to make this possible? What barriers must be overcome?

# REMINDER: Working Meeting for PRME Chapters

A working meeting for PRME Chapters will take place on 19 July from 8-8:45 am in the Constantino Conference Room.

These informal and self-organised meetings aim to provide space for each PRME Chapter to reflect and follow up on the discussions and commitments made on 18 July and to coordinate how to implement and report the outcomes back home. Potential new Chapters will also have space to discuss their value proposition, activities, governance arrangements and timeline for creation.
