• Disciplinary boundaries will be bridged in different ways than we see today.

• The challenges of the business world will drive the growth of intellectual capital to a larger extent than today.

• The role of business in society will be addressed repeatedly with a holistic global perspective in mind.

"A core aspect is the degree to which the individual has developed his or her own level of consciousness and awareness of both the external global context and the inner dimensions of themselves. This is the starting point which defines the extent to which they are able to determine, with others, right action in a global setting."
