

# 7<sup>TH</sup> CR3+ CONFERENCE:

## Using Dialogue to Build Partnerships for Sustainability

Call for themes, workshops and symposia

Working in conjunction with Audencia Business School (France), Hanken School of Economics (Finland) and ISAE/FGV (Brazil); The La Trobe Business School is hosting a two day conference on the topic 'Using dialogue to build partnerships for sustainability' from the 24th to 25<sup>th</sup> October 2019.

As we work towards building a more sustainable world we cannot work in isolation. Partnerships, working with others within and across organisational boundaries, with others of different worldviews, and with others of different persuasions is necessary to ensure long term success.

Dialogue between actors can take many forms and the partnership model may be problematic, with issues such as co-option and abuse of power. Differences between actors can also lengthen the journey and make the measure of success difficult to determine.

We invite proposals for themes and papers that investigate the role of partnerships and dialogue in teaching, research and the world of work to build a more sustainable future.

These proposals should be approximately one page, including a list of the types of topics authors might wish to address. We also invite proposals for symposia, workshops and panel sessions, for which speakers and themes need to be included. The deadline for these proposals will be 20 December 2018, and the final list of themes will be announced in early January 2019. Please send your proposals to [prme@latrobe.edu.au](mailto:prme@latrobe.edu.au)

We will look into the possibility of a special issue of a journal to which the better papers may be submitted.

OCTOBER 2019  
**24-25**

La Trobe Business School,  
Melbourne, Australia

**Key Dates:**

**Deadline for themes: 20/12/18**

**Themes announced: 5/1/19**
