Rio Dialogues: Vote for PRME and the Global Compact!

UN Secretary-General Ban Ki-moon has called on people around the world to cast their votes in an online global poll on solutions to the planet's most pressing social, economic and environmental challenges. With your support, we made it through Round 1. Only 30 topics will be chosen to be conveyed directly to world leaders and decision makers at the Rio+20 Conference. We need your help to secure a place in the Final Round:

1. Click here: <http://vote.riodialogues.org>
2. Scroll down and open the yellow banner:

→ "Sustainable Development as an Answer to the Economic and Financial Crises" ←
3. Vote for these two topics (NO registration required):
 - Educate future leaders about sustainable development (PRME)
 - Encourage businesses to adopt sustainability standards, such as the United Nations Global Compact Principles
4. Inspire your communities to vote as well!

Inspirational Guide

The *Inspirational Guide for the Implementation of PRME: Placing sustainability at the heart of management education* is now available online at www.gseresearch.com/about/prme.htm with a bound book version available later in the summer.

Compiled for the occasion of the [3rd Global Forum](#) and the Rio+20 Earth Summit, the Guide provides answers to the most frequently asked questions concerning the implementation of the Principles for Responsible Management Education and seeks to inspire further integration of PRME by highlighting real world examples of the Principles in practice in signatory schools and universities.

The publication features 63 case stories from 47 PRME signatory schools, representing 25 countries around the world. Their experiences address the [Six Principles](#) and cover useful advice on reporting and how to get started.

Many other new resources and key reports will launch at next week's 3rd Global Forum as well. Please visit our website for an [overview](#).
